

**BMET3997/9997**  
**Physiological signal sensing and processing**  
**Major project: Week 11 Progress**

THE UNIVERSITY OF  
**SYDNEY**

**Philip de Chazal**

**Semester 1, 2026**

We acknowledge the tradition of  
custodianship and law of the Country on which  
the University of Sydney campuses stand.  
We pay our respects to those who have cared  
and continue to care for Country.

SYDNEY

# Progress

- **2 weeks until your presentation!!**
- **Each group should be at the point where they are making their first submission**
- **Minimum progress**
- **QRS detector**
  - Simple scheme based on enhanced Pan-Tompkins
  - No additional processing
- **HRV estimation**
  - All parameters calculated using expert QRS detections and with average(MAPE) $\sim 0$  on training data
  - Average(MAPE) calculated on training data using your QRS detector
